Product: **ISOPHTHALOYL CHLORIDE/TEREPHTHALOYL CHLORIDE, 50/50**

Blend/ DAC 50-50 (50%ICL/50%TCL)

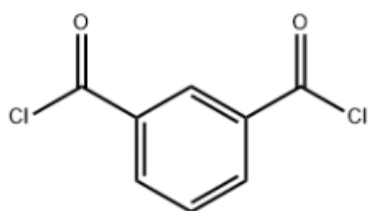

ISOPHTHALOYL CHLORIDE/TEREPHTHALOYL CHLORIDE, 50/50 Blend, is a white crystals with a pungent odor, decomposes in contact with water. PEKK was produced

from a mixture of Isophthaloyl chloride and Terephthaloyl chloride.

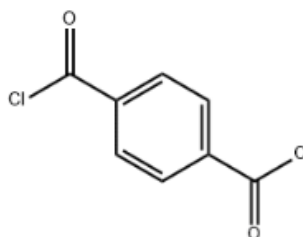

Isophthaloyl chloride	CAS No: 99-63-8	Concentration:50%
Terephthaloyl chloride	CAS No: 100-20-9	Concentration:50%

Molecule structure

Isophthaloyl chloride

Terephthaloyl chloride

Specifications:

Appearance: White crystals

TCL Component:75ppm max

ICL Component:75ppm max

MONOFUNCTIONALS, ICL:1600ppm max

MONOFUNCTIONALS, TCL:1600ppm max

TCL:48.5%to51.5%

Packing & Delivery 20mt/ISO tank

UN No.3261, Class:8, Packing group:II

Application

☒ Isophthaloyl chloride and Terephthaloyl chloride

is the intermediate material for PEKK.
